Education

Bachelor of Computer Applications, Guru Gobind Singh Indraprastha University — New Delhi
CGPA 9.1 — 2024 - 2027

Projects

EventHub | Next.js, React, Tailwind CSS

Contributor

- Built an event discovery and ticketing platform.
- Developed user & organizer workflows with responsive UI and deployed on Vercel.
- Developed REST APIs with Node.js/Express + MongoDB, deployed backend on Railway

Saarthi - AI

Developer

- Built a government benefits navigator for scheme discovery and eligibility.
- Developed FastAPI backend, AI-driven document/eligibility analysis and conversational assistance.
- Implemented scheme search, user profiles, authentication. More to follow here.

Atlas Travel AI

Developer

- Built a Next.js pipeline orchestrating OpenStreetMap, Wikipedia, and Open-Meteo APIs to collect real-time geospatial and weather data.
- Developed a TypeScript algorithm to cluster nearby attractions and calculate travel distances for optimized daily itineraries.

Skills

Technical Skills

- Languages: Python, JavaScript, C, SQL
- Data Analytics: Pandas, NumPy, Excel, Power BI, Data Visualization, Statistical Analysis, Tableau.
- Development: React, Next.js, Node.js, Express, FastAPI, REST APIs, MongoDB (MERN)
- Tools & Cloud: Git, GitHub, Docker, Postman, Vercel, Render, Railway

Soft Skills

- Collaborated with a 3-member team on EventHub and worked with different teams during the ISRO and Algorand hackathons.
- Adaptability & Problem Solving, with zeal to work with teammates.

Experience

Cisco Cybersecurity Internship | Cisco Networking Academy

- Designed campus network topology, segmentation & attack-surface analysis using Cisco Packet Tracer.
- Developed a secure hybrid-access architecture using role-based segmentation, VPN/SASE concepts, authentication flows.

Data Analytics Summer Training | Selfreneur

- Analyzed sales,pricing, returns & regional data using PowerBI/Tableau, creating interactive dashboards and KPIs.
- Applied data transformation, DAX, & visual analytics to identify trends and business insights, on Global Certification System dataset.

AI Intern | Agnirva

- Conducted cross-functional research across AI and Space domains, contributing to knowledge system, business, quality assurance.

Hackathons & Achievements

ISRO Bharatiya Antariksh Hackathon 2025

Developed an AI-powered information-retrieval chatbot using LLMs, NLP and dynamic knowledge graphs.
Worked with a 4-member team on semantic search, multilingual queries, document/web extraction and conversational responses.

Smart India Hackathon 2025 — KMRL

Designed an AI-powered document automation system for OCR, multilingual processing, and knowledge extraction.
Proposed React + FastAPI + PostgreSQL + Redis/Celery + NLP/OCR pipeline with automated alerts, search, and compliance tracking

McKinsey.org Forward Program Participant | McKinsey & Company | 2026
